NEW Sizzix® Magnetic Platform for Wafer-Thin Dies

The attraction is obvious! The Sizzix Magnetic Platform uses high-grade magnets in a durable plastic platform to hold Framelits™, Thinlits™ and other wafer-thin dies securely in place while they are being cut. The innovative platform helps create a sandwich to accommodate wafer-thin dies – including competitors' designs – in the BIGkick™, Big Shot™, Big Shot™ Pro and Vagabond™ machines.

Magnetic Platform

Measures 6 1/8" x 8 7/8" x 5/8"

\$39.99 MSRP

A Force Like No Other...

- Allows perfect registration when cutting stamped or embossed designs and photos
- Supports multiple dies at once for multiple cuts
- Holds dies in place for precisely cut windows on cards, bags and boxes
- Designed with closely-aligned magnets for strongest attraction
- Durable plastic material for years of use

Warning: Magnets can affect the functioning of pacemakers and implanted heart defibrillators.
