Chipboard Thank You Card

Designed by: Grafix Designer

Supplies:

Grafix White Chipboard
Grafix Rub Onz
Grafix Double Tack
Flower brad
Patterned Paper
Pink and Sage Cardstock
Hole Punch
Die cutter or Scissors

Directions:

1. Cut a piece of White Chipboard into a tag shape using die cutter or scissors. Tag should be 2" x 4".
2. Cut pink and sage cardstock to 4.5" x 6".
3. Trim the sage card stock with decorative scissors and layer with the pink card stock. Secure with Double Tack.
4. Cut patterned paper to 3.5" x 5" and attach to the sage card stock with Double Tack.
5. Create text on your computer and print on to the Rub-Onz material.
6. Apply to the tag according to the directions on the package.
7. Cut out a flower and leaf from the patterned paper and apply to the bottom corner of your tag.
8. Punch a hole in the tag and card stock layers. Secure the tag to the card stock using a brad.
