## How to make:

1. Die-cut leaves from the Elegant Leaves die set multiple times out of agave and green tea colored sculpting foam.
2. Heat the die-cut leaves slightly with your heat tool and then place them into the Leaf Veins embossing folder while they are still warm and run them through the Sizzix® Big Shot™ Machine to achieve the embossed leaf vein effect.
3. Arrange and hot glue the leaves to one side of the embroidery hoop while also including a variety of the flower stamens in between the layers of the leaves.
4. Print or write a sentiment of your choice onto a white piece of paper, tear the edges to create a rectangle shape and attach between the two embroidery hoops to allow it to stay put across the middle of the hoop.
5. Finally attach a piece of white ribbon to the top of the hoop for hanging.
